INSTRUCTIONS FOR USE

APPLICATION

Thoroughly clean the surface from dust, and any dirt. Protect the surrounding area that you do not want to paint. Shake very well before use for at least 3 minutes after the mixing ball is heard. During the first use, spray in the air for 3-4 seconds to remove any sediment from the valve. Check the product on a testing surface. Spray the object you want to paint from a relatively close distance of 4-5cm with the white valve or 8-10cm with the black one. During spraying, you firmly move the container alongside the sprayed surface. shake the container regularly, for best results apply 2 layers, waiting 3-5 minutes between them.

The optimal use temperature is 10°C - 25°C.

AFTER USE

Spray holding the can inverted for 3". Clean the caps with solvent.

STORAGE

5°C-35°C. Never leave the product inside a vehicle.
